Re: 3HW32
St. Julien's Creek Annex
RCRA Facility Assessment
Dated August 30, 1988
EPA I.D. No. VA 5 170000181

Dear Sir:

Per a phone conversation between Mr. John B. Lancaster, Jr., of my staff and Mr. Sherman Latchaw of your staff, we are requesting that the review period for the St. Julien's Creek Annex RCRA Facility assessment be extended until 8 February 1989. Having received this document at this time of the year has reduced our review period since the shipyard will be shutdown for the holiday period from 23 December 1988 through 2 January 1989. We hope this delay will not impede the activity of your department.

Should you have any questions, please contact Mr. Lancaster at (804) 396-3499.

Sincerely,

JAMES K. STRICKLAND
Director, Environmental Programs Division
By direction of
the Shipyard Commander
